CLUES:

A technique to perform torsional flex

A turn performance which blends skills especially rotary and edging

Freestyle can be broken into these steps

The most important skill to teach beginners

A progression for beginners that are ready to move on snow

A board can have this flex design

When you ride in your non-preferred stance direction?

Development that refers to how children think and process information

A method of teaching that helps nervous students

Teaching this progression helps students gain edge control across the slope

When you lean, you create this from of edging

An imaginative way to connect words via association with children

We use the word 'turn' often to describe this skill

You can do this with students to get them ready for the lesson

A skill that starts with e.....

You should check this part of students' equipment before the lesson

A form of flexion when you move your foot down

Grab performed in level two exam

The finish of a turn?
